EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John McNelis on 10/28/2004.

The application has been amended as follows:

Cancel claim 53.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a method for measuring a phase difference between first and second reflected polarized light components. The method comprises: separating from a reflected light signal a first mixed reflected polarized light signal component having a first phase and a second mixed reflected polarized light signal component having a different phase, wherein said first mixed reflected polarized light signal component and said second mixed reflected polarized light signal component comprise both P-polarized and S-polarized light relative to the plane of incidence of said reflected light signal; determining a difference in phase between said first and second mixed reflected polarized light signal components which structurally arranged and functionally operated as claimed in claims 1,14,31,42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu T. Nguyen whose telephone number is (571) 272-2424. The examiner can normally be reached on T-F 7:30-5:30.
